

nineteen

manual dish detergent solid

resolve series represents a complete kitchen solution. Simple, numerically named, effective dish detergents, degreasers and sanitizers for both manual and automatic cleanup keep your food preparation areas sparkling with minimal effort.

nineteen is a high performance dish detergent solid in a capsule. It was specifically designed to be safely used on all metals including aluminum and other soft metals. It is formulated as a heavy duty combination of alkaline builders, water conditioners, soil suspending polyacrylates and non-foaming detergents.

FEATURES

- A versatile product that effectively removes dried-on foods, grease, oil and other food soils on glassware, china, plastic, cutlery, and pots and pans of all construction including aluminum, zinc and other soft metals.
- Generates no foam that can interfere with accuracy of dishwasher's operation.
- Contains a special polymer that decreases precipitation and adherence of inorganic salts to glass surfaces thereby eliminating 'spotting' of glassware.
- Performance and rinsability are unaffected by water hardness. Contains water softeners that reduce formation and build-up of scale and scum in jet sprays and other surfaces of dishwashing machines.

OPTIMAL APPLICATIONS

Restaurants, cafeterias, schools, hospitals, kitchens, hotels, motels, nursing homes and other food service establishments.

IDEAL FOR

Glassware, steel cutlery, pots and pans, porcelain and plastics.
