

six

clinging | oven cleaner

**resolve series** represents a complete kitchen solution. Simple, numerically named, effective dish detergents, degreasers and sanitizers for both manual and automatic cleanup keep your food preparation areas sparkling with minimal effort.

**six** is a fast acting, penetrating and clinging industrial oven and stove cleaner that dwells for a long time on all surfaces making it the first choice for vertical surfaces and heavily encrusted and baked-on greases and food soils.

## FEATURES

- Its thickened formulation provides the longer contact time required to penetrate, loosen and remove carbon deposits and encrusted and baked-on food soils and grime from difficult to reach areas and vertical surfaces.
- Contains non-flammable yet potent solvent that makes product safer to use on heated surfaces.
- Designed as ready-to-use cleaner that can readily be sprayed or brushed on horizontal and vertical surfaces for rapid and easy cleaning.
- Contains low foaming emulsifiers to aid in cleaning/degreasing without the problem of excess foam.

**Note:** Due to highly alkaline nature of formulation, do not use on aluminum, copper, galvanized, plastic composition tile, painted surfaces, and self-cleaning and/or continuous cleaning ovens.

## OPTIMAL APPLICATIONS

Kitchen of restaurants, cafeterias, schools, hospitals, nursing homes, bakeries, hotels and motels.

## IDEAL FOR

Ovens, grills, deep fat fryers, hoods, racks, burners, griddles, rotisseries and drip pans.

## PRODUCT SPECIFICATIONS

Physical Description	Clear liquid
Color	Light yellow amber
Odor	Bland
pH (1%)	12.5 to 13.0
Viscosity	Thick, smooth
Flashpoint	None
Weight per Gallon	9.5 lb / gal
Storage Stability	1 year minimum
D.O.T. Shipping label	Compounds, cleaning liquid (sodium hydroxide), 8, UN 1760, PG II
